Gross premiums written within the change of ownership insurance totalled NOK 173,5m, up 7,0% from Q2 2015.

Premiums earned for own account totalled NOK 720,4m, an increase of 28,5% compared to Q2 2015.

## Results

The operating profit before tax totalled NOK 254,9m, up from NOK 118,4m in Q2 2015.

Year to date 2016 the operating profit before tax totalled NOK 300,1m, down 8,8% from the same period last year.

In Q2 the net profit was NOK 222,7m, against a net profit of NOK 111,1m in Q2 2015. For H1 2016, the net profit totalled NOK 232,4m, compared to NOK 291,2m in H1 2015.

In H1, the net combined ratio was 91,2%, compared to 84,8% in H1 2015.

In Q2 the company had run-off gains of 0,6%, compared to 1,3% run-off gains in Q2 2015. Run-off losses year to date 2016 amounted to 5,3% primarily from strengthening reserves in the change of ownership segment.

Gross claims ratio was 89,5%, up from 73,5% in Q2 2015 and net claims ratio was 94,3%, up from 83,5% in Q2 2015. The increased claims ratio in Q2 2016 relates to a concentration of larger claims mainly in the Norwegian part of the business. In addition, some Danish affinity programs are performing poorly, and measures have been taken to improve profitability going forward.

The gross expense ratio was 5,1% down from 6,7% in Q2 2015, whilst the net expense ratio was -0,5%, down from 3,5%. The low net cost ratio comes from profit sharing with reinsurers.

## **Investment return**

Net investment portfolio amounted to a total of NOK 7.448m at 30 June 2016, up 21,4% compared to the portfolio end of Q2 2015.

## **Capital and shareholder matters**

In April Protector Forsikring ASA successfully placed a subordinated loan of 500 MNOK. The terms of the loan comply with existing and expected future requirements for subordinated debt eligible as tier 2 capital.

The AGM on 21 April 2016 approved the payment of a dividend of NOK 2,25 per share. This pay-out reduced the equity by NOK 193,9m in this quarter.

On May 11<sup>th</sup> Chairman of the Board sold 700,000 of his shares through his company Alsøy Invest AS. After the transaction Alsøy Invest AS holds 1,002,751 shares in Protector Forsikring ASA.

## **Prospects**

The Board is satisfied with the premium growth and that measures has been taken to improve claims ratio in Denmark and the change of ownership segment. The Board expects continued growth and acceptable combined ratio for the full year.

The uncertainty in claims development in some of the company's segments, and the inherent volatility of capital markets, are regarded as the most important risk factors that could affect the company's profit in 2016.

Fair value of financial assets traded in active markets are based on market value on the accounting day. A market is considered active if the market rates are easily and regularly available from a stock exchange, distributor, broker, industrial classification, price-setting service or regulatory authority, and these prices represent actual and regularly occurring market transactions at arm's length. The market price applied to financial assets is the existing bid price. These instruments are included in level 1.

Fair value of financial instruments not traded in an active market is determined by using valuation methods. These valuation methods maximise the use of observable data where available, and are based as little as possible on own estimates. The instrument is included in level 2 if all essential data are based on observable market data.

The instrument is included in level 3 if one or more essential data are not based on observable market data.
